

Philips
SpeechMike Exec Classic

SpeechMike

LFH 7260 / 7262

Total control at your fingertips

The SpeechMike Classic and SpeechExec Pro Dictate professional dictation software deliver the ultimate in desktop recording and navigation. The SpeechMike Classic features an ergonomically designed four-position slide switch for recording control. The Classic features an optical (mouse) trackball and scroll wheel for precise PC and file navigation. SpeechExec Pro Dictate, the professional dictation software, manages dictation files from recording to archiving. SpeechExec Pro tracks work in process and can automatically transfer files through a company network, email or by FTP upload for further processing, such as speech recognition.

Quick control

- Professional PC dictation solution
- One-thumb operation of all dictation features with the 4-position slide switch
- Ergonomic and lightweight design for maximum user comfort
- Intuitive software user interface for easy management of dictation files

PHILIPS
sense and simplicity

Key benefits

SpeechMike Classic

- **PC dictation microphone with 4-Position slide switch**
- **Dust-proof optical trackball and scroll wheel** for precise navigation through all documents
- **Clearly visible LEDs** indicate insert, overwrite and recording mode
- **Ergonomic and lightweight design** for maximum user comfort
- **Superb recording quality** ensures crystal clear playback - ideal for speech recognition
- **Simple connection** to the PC via USB

SpeechExec Pro Dictate

- **Easy to use** dictation functionality for organizing recordings
- **Priority indexing** allows authors to easily define urgent jobs
- **Spoken instructions** improve communication with the transcriptionist
- **Data protection** (encryption and decryption) allows only authorized persons to access your documents
- **Job status information** allows you to track work in progress
- **Visible and audible job notifications** eliminate errors and decrease turnaround time
- **Dictation files** can be automatically transferred via company network, e-mail or uploaded onto an FTP server for further processing

Two slide switch versions available

SpeechMike Classic 7260
with Philips 4-position slide switch
FFWD/PLAY/STOP/FRWD

SpeechMike Classic 7262
with International 4-position slide switch
REC/STOP/PLAY/FRWD

Specifications

Specifications

- **Dimensions (W x L x H):** 1.7 x 6.1 x 1.1 in. / 43 x 155 x 30 mm
- **Weight:** 5.5 oz. / 155 g
- **Acoustic frequency response:** 200 – 6,000 Hz
- **Output power:** >100 mA

PC requirements (SpeechExec)

- **Minimum:** Pentium III, 500MHz and 256MB RAM
- **Recommended:** Pentium IV or similar, 1GHz and 1GB RAM
- **Hard disk space:** 100MB hard disk space for SpeechExec, 250MB for Microsoft .NET Framework
- 1 free USB port
- **Recommended minimum transfer rate for LAN:** 100 Mbit/s
- **Operating system:** Windows Vista, Windows XP (with SP 2), Windows 2000 (with SP 4)

Green specifications

- Compliant to 2002/95/EC (RoHS)
- Lead-free soldered product

Operation conditions

- **Temperature:** 5° - 45° C / 41° - 113° F
- **Humidity:** 10 % - 90 %

Package contents

- SpeechMike Classic with 4-position slide switch
- SpeechExec Pro Dictate Software
- USB Smart Key
- Hanging bracket
- User manual

Also available

- SpeechMike Exec Pro 7274

Product highlights

First class handling

Simplicity and easiness to use are two main guidelines for Philips products. Designed with four ergonomic zones, it has been tested and proven by users for best fit of the human hand.

Easy to use

This all-in-one unit gives the user a third hand. No need to detach the hand from the microphone when moving the mouse around the PC – much like working with endoscopes. Full control over the application while enjoying the ease of dictation with this unique device.

Scroll- and volume wheel

An additional scroll wheel gives the user the choice of adjusting the volume of the playback without removing the hand of the microphone or looking at the screen.

Light weight

For every day usage, also the weight comes into play. It has been made very light weight and perfectly balanced, so it is easy and comfortable to handle at all times.

Best mobile pointing device

The integrated optical track-ball is the best mobile pointing device on the market, giving you control over quick and accurate movements.

Highest ESD (electro-static discharge) protection

Working in an office environment one can charge oneself with electrostatic energy. Therefore the Philips hardware is highly protected against that kind of discharge via the hardware.

SpeechExec Pro Dictate

SpeechExec Pro Dictate, the network-based dictation software, facilitates the sharing and archiving of dictation files and streamlines communication between author and transcriptionist. It includes advanced features such as file encryption and integration with legal and medical IT systems.

Digital Speech Standard (.dss)

The .dss file format is the international standard for professional speech processing. Offering outstanding audio quality for recorded voice, .dss files allow a high compression rate, reduced file sizes, network traffic, and required storage capacity. The format also allows additional information, such as client/patient name, document type to be stored in the file header, further facilitating file organization. The .dss Pro format is an extension to the .dss format that supports file encryption to protect confidential dictation data and optimizes speech recognition results.
